This class was developed to meet the needs of developmentally young five year olds. This extra year provides the child more time to gain self-confidence, self-esteem and basic skills so he or she will enter school with a positive attitude. The 4/5 class uses a kindergarten curriculum for math and literacy, geared to each child's developmental level.

If for some reason a class does not meet the minimum number of students or there is not enough space for your child your registration fee will be refunded. Registration forms will be taken in order they are received. Therefore, it is important to return the registration form and fee ASAP.
